Mechanics of Spam Filtering

Timmins, ON – October 23, 2007 – Gerard Bruneau of NorthernTel will discuss how organizations try to eliminate spam before it reaches your personal or business computer. A number of tactics can be employed to combat spam ranging from preference settings on your computer to controls put in place by your internet service provider (ISP). This presentation will be of interest to every email user, as participants will obtain a better understanding of how spam is filtered out, as well as what steps one can take to control spam. To learn more plan on attending NEOnet's Tech Break Time luncheon on Tuesday October 23, 2007.

Admission is free, and lunch is available at the participants' expense. The event will run from 12:00 p.m. until 1:00 p.m. at Siva's Family Restaurant (Timmins Square).

For more information on *Tech Break Time* or to register for this month's event, contact Chris McLaughlin at 705.360.1353 ext 1 or cmclaughlin@neonet.on.ca.

Note: NEOnet is a regional non-profit technology development organization working to improve telecommunications services and ICT adoption in Northeastern Ontario.
