(Also, please post this information on your **community calendar**.)

Contact: Stéphane Gallant, ICT Project Manager - NEOnet Phone: 705-360-1353x2

Building a Highly Available IT Solution

TIMMINS, ON – April 2005 – The prominence of information technology in business and government has increased to a point where down time is critical. That’s why it’s important that IT solutions, from networks to applications, be built with quality of service in mind.

With proper planning, this is possible. If you’d like to learn about this important topic, then plan to attend NEOnet’s *Tech Break Time* technology luncheon on Tuesday April 26th.

NorthernTel’s Gerard Bruneau will explain how having the right server and applications, and the right network, can ensure that you benefit from the required quality of service.

Admission is free, and a buffet lunch is available at a cost of \$8.95 plus taxes. The event will run from 12:15 p.m. until 1:00 p.m. at the Days Inn.

For more information on *Tech Break Time* or to register for this month’s event, contact Stéphane Gallant at 705.360.1353 ext 2 or sgallant@neonet.on.ca .

Note: NEOnet is a regional non-profit technology development organization working to improve telecommunications services and ICT adoption in Northeastern Ontario.

****Free lunch for members of the media****
