Phone: 705-360-1353 x 1

Digital Video Editing

Timmins, ON – October 18, 2006 – InfoTrends Research Group’s 2003 study “2003 Worldwide Consumer Digital Camera Forecast” projects that worldwide unit sales of consumer digital cameras will reach nearly 82 million units in 2008. The instant gratification one receives from viewing photos or videos just taken has been the catalyst for exponential growth in sales.

Computer software applications can assist you in editing your digital videos and photographs – bringing your imagination to life. If you would like to learn more about digital video editing, then plan to attend NEOnet’s Tech Break Time technology luncheon on October 24th, 2006.

Tammy McQuestion of Quest Video Productions will discuss how individuals can use computer software to make their own movies or slideshows out of digital videos or photographs.

Admission is free, and lunch is available at the participants’ expense. The event will run from 12:00 p.m. until 1:00 p.m. at the Golden Dragon Restaurant – 128 Third Avenue.

For more information on *Tech Break Time* or to register for this month’s event, contact Chris McLaughlin at 705.360.1353 ext 1 or cmclaughlin@neonet.on.ca. Please R.S.V.P. by October 23, 2006.

Note: NEOnet is a regional non-profit technology development organization working to improve telecommunications services and ICT adoption in Northeastern Ontario.
