Implementing IT Infrastructure in a Remote Area

Timmins, ON – November 20, 2007 – As northern exploration continues to grow more companies may begin to face obstacles in developing their information and communication technologies infrastructure. Darrell Holmes of De Beers Canada will discuss how they have overcome the challenges of establishing IT infrastructure at the Victor Project. Darrell will also provide a brief background of the company and a look into their future plans. This presentation will be of particular interest to every IT manager, as well as those interested in the Victor Project, since participants will obtain a better understanding of the company and how it has overcome IT challenges in the remote area. To learn more plan on attending NEOnet's Tech Break Time luncheon on Tuesday November 20, 2007.

Admission is free, and lunch is available at the participants' expense. The event will run from 12:00 p.m. until 1:00 p.m. at Siva's Family Restaurant (Timmins Square).

For more information on *Tech Break Time* or to register for this month's event, contact Chris McLaughlin at 705.360.1353 ext 1 or cmclaughlin@neonet.on.ca.

Note: NEOnet is a regional non-profit technology development organization working to improve telecommunications services and ICT adoption in Northeastern Ontario.
