Virtualization: Extending Computer Capabilities

Timmins, ON – June 25, 2007 – Virtualization is a very exciting and fresh concept in the realm of computers. It can offer home or business users extended computing capabilities without having to buy multiple servers or computers or struggle with multi boot systems. Rene Cor of NorthernTel will discuss how businesses and home users are making the most out of their existing computers, as well as the benefits and drawbacks of implementing virtualization. This presentation will be of interest to everyone, especially individuals and businesses that are looking to get more out of their computer experience. To learn more plan on attending NEOnet's Tech Break Time luncheon on Tuesday June 26, 2007.

Admission is free, and lunch is available at the participants' expense. The event will run from 12:00 p.m. until 1:00 p.m. at Siva's Family Restaurant (Timmins Square).

For more information on *Tech Break Time* or to register for this month's event, contact Chris McLaughlin at 705.360.1353 ext 1 or cmclaughlin@neonet.on.ca.

Note: NEOnet is a regional non-profit technology development organization working to improve telecommunications services and ICT adoption in Northeastern Ontario.
